- **Languages:** English, Urdu, Punjabi
- **Other skills:** Adaptability, flexibility, Time management, System Administration, Computer Networking, Domain control, DHCP, Router/switch configuration, Teamwork, Analytical, problem-solving, Accuracy & Attention to detail, Excellent Communication

## PROJECTS:

*~Refer to my portal for more details/projects: <https://khalidumar098.github.io/>*

***Parking Garage System, Jan 2020 - April 2020***

- Developed a parking garage system website for the ease of finding parking ahead of time. Users can Signup/Login, make a reservation online. Admin can manage bookings, maintain daily transactions, etc. Built by using multiple languages such as HTML/CSS, JavaScript, MySQL, PHP, and Bootstrap. Also, developed an Android application using Java, Google Map API, and MySQL with a team of 3.

***Stock Data, Sep 2019 - Nov 2019***

- Developed a Software Engineering group project using HTML/CSS, JavaScript, MySQL, Node JS, and PHP. The stock data includes open/close, high/low, max/min/avg price, change in percent and volume percent of the last 30 days. The system has restful APIs, and data is retrieved through IEX cloud.

## AWARDS & CERTIFICATIONS:

- AWS Solution Architect Associate Course Completion Udemy
- Dean's List, 2016 - 2020 Union County College, Kean University
